

MD SHAKINUL ISLAM

Flutter & Cross-Platform Mobile App Developer

Khulna, Bangladesh | +880 1775199186 | shakinulislam017@gmail.com | linkedin.com/in/Md Shakinul Islam
| github.com/shakinul-islam |

PROFESSIONAL SUMMARY

Product-focused Cross-Platform Mobile App Developer specializing in Flutter & Dart, with experience building secure, scalable, real-time, and AI-powered applications. Skilled in Firebase, REST APIs, Node.js, Express.js, MongoDB, AI API integration, and responsive UI/UX. Strong focus on turning real-world problems into reliable, user-centric mobile products, with hands-on experience in debugging, testing, security, and production-ready builds.

TECHNICAL SKILLS

- Languages: Dart, Java, XML, Python
- Mobile: Flutter, Native Android, Responsive UI/UX, State Management (Provider, BLoC)
- Backend & APIs: Node.js, Express.js, RESTful APIs
- Database & Cloud: Firebase Auth, Firestore, MongoDB Atlas, SQLite, Cloudinary
- AI & Real-Time: Groq API, Gemini API, Llama models, Prompt Engineering, ZegoCloud, FCM, OneSignal
- Security & Engineering: JWT, bcrypt, Firestore Security Rules, OOP, SOLID, Clean Code, Error Handling
- Tools: Git, GitHub, VS Code, Thunder Client

PROJECTS

EliteTalk — Real-Time Communication Platform

Flutter, Firebase Firestore, FCM, Cloudinary, Groq API, ZegoCloud, OneSignal

- Built a secure real-time messaging platform with message requests, Sent/Delivered/Seen status, typing indicators, and push notifications.
- Implemented media/document sharing, swipe-to-reply, emoji reactions, message deletion, and integrated audio/video calling.
- Integrated a bilingual AI assistant using Groq API and Llama 3.3 70B for English and Bengali conversations.

AI Expense Analyzer — AI-Powered Personal Finance App

Flutter, Dart, Node.js, Express.js, MongoDB Atlas, Groq API, JWT, bcrypt

- Developed an AI-powered finance app with natural-language Smart AI Entry, automatically identifying transaction amounts and categories.
- Built an AI financial assistant that analyzes user spending data and provides personalized insights and recommendations.
- Implemented budget monitoring, real-time notifications, secure JWT authentication, password hashing, REST APIs, and MongoDB aggregation.

Dokaner Hisab — Smart Grocery POS & Shop Management

Flutter, Dart, Firebase Auth, Cloud Firestore, Cloudinary, fl_chart, Local Notifications

- Developed a grocery POS application with cart management, automatic stock deduction, multi-unit support, purchase history, and customer due profile.
- Implemented financial analytics for profit/loss, monthly costs, and net revenue with interactive charts.

- Applied user-isolated Firestore security rules, offline persistence, Cloudinary uploads, and local reminder notifications.

Contactless Dining & Restaurant Management SaaS

Flutter, Dart, Firebase Firestore, OneSignal, Cloudinary, PWA, bKash & Nagad

- Built a QR-based contactless ordering PWA and responsive management portal for restaurant operations.
- Implemented real-time order synchronization between Customer, Waiter, and Kitchen interfaces with role-based access control.
- Added web push notifications, menu image management, and bKash/Nagad payment tracking through Send Money and transaction ID submission.

EDUCATION

Bachelor of Science in Computer Science & Engineering (CSE) — Northern University of Business and Technology Khulna

CGPA: 3.66 / 4.00 | Expected Graduation: 2026

EXPERIENCE / TRAINING

Flutter Developer Trainee — AppStick IT Firm

3-Month Industrial Training

- Hands-on training in Flutter, Dart, Firebase, REST APIs, UI/UX, and mobile app development.

Industrial Training Project — EliteTalk

- Developed and contributed to a full-stack, cross-platform real-time communication application as part of industrial training.
